

Plumber's Putty

Stainless Fixture Setting Compound

PV043047

PV043123

Plumber's Putty is a homogenized, stainless fixture setting compound. For use on rims, strainers, faucets, and toilet bowls wherever a non-drying watertight seal is needed. Do not use on plastic or marble. Meets Federal Specification TT-P-1536A.

DIRECTIONS FOR USE

Plumber's Putty never hardens, flakes, crumbles, cracks or shrinks. USE ON rims, strainers, faucets and toilet bowls wherever a nondrying, watertight seal is needed. Knead putty before application; spread liberally to insure perfect seal. Excess is easily removed and reused. DO NOT USE ON PLASTIC OR ANY POROUS STONE. You may use a siliconized acrylic tub seal latex on plastic or porous stone.

CHEMICAL AND PHYSICAL PROPERTIES

Specific Gravity:	1.9
Appearance:	thick off-white putty
Odor:	mild oil
Flash Point:	650°F. (TOC)
Fire Resistance:	excellent
Water Solubility:	insoluble
Freeze/Thaw Cycle:	will not freeze
Shelf Life:	indefinite

CAUTIONS

KEEP OUT OF THE REACH OF CHILDREN. Do not take internally. If swallowed, seek immediate medical attention. Do not induce vomiting. Keep container closed when not in use.
